## ***Equipment Rebates***

Rebates from CenterPoint Energy can help you save money on new energy-efficient equipment like heating systems, water heaters, kitchen equipment, and more. We are here to help you choose the right equipment that both meets your needs and saves energy and money. Inside this booklet, you'll find easy, low- or no-cost and long-term solutions and rebates that are available in the current programs.

**Programs run January 1, 2021 to December 31, 2021.**

## ***Points of Contact***

### ***Residential Programs***

For assistance completing a Residential rebate application, call **866-240-8476** or email **[SaveEnergy@CenterPointEnergy.com](mailto:SaveEnergy@CenterPointEnergy.com)** to reach an Energy Efficiency Advisor between 7 a.m. and 7 p.m. EST Monday-Friday.

### ***Commercial & Industrial Programs***

For assistance completing a Commercial & Industrial rebate application, call **866-240-8476** or email **[IndianaBizPrograms@CenterPointEnergy.com](mailto:IndianaBizPrograms@CenterPointEnergy.com)** to reach an Energy Efficiency Advisor between 7 a.m. and 7 p.m. EST Monday-Friday.

# Residential Programs

## Heating and Cooling System Rebates

Heating and cooling costs make up the majority of your energy costs, which makes replacing your old or inefficient HVAC equipment one of the most impactful measures you can take to curb energy usage. There are a variety of eligibility guidelines specific to each rebate, so be sure to check the website for details.

Before purchasing, visit [CenterPointEnergy.com/SmartSavings](https://www.CenterPointEnergy.com/SmartSavings) or call 866-240-8476 for the rebate application and complete details on energy-efficient equipment and service requirements. Rebate amounts are effective for equipment purchased and installed between January 1, 2021 and December 31, 2021. Rebate applications must be postmarked within 60 days of equipment installation.

## Natural gas heating/cooling systems

Equipment Type	Rebate
<b>Natural gas furnaces</b>	
95-96.99% AFUE	\$250
Furnace Tune-Up	\$25
<b>Natural gas boilers</b>	
90% AFUE or higher	\$300

Note: Input capacity must be less than 300 MBTUH

AFUE = Annual Fuel Utilization Efficiency

SEER = Seasonal Energy Efficiency Ratio

HSPF = Heating Seasonal Performance Factor

EF= Energy Factor

### Important Information

#### Program Dates: Jan 1 - Dec 31, 2021

- Completed applications must be postmarked and submitted within 60 days of equipment installation, and include all required information, invoices and certificates for existing homes and 90 days for new construction.
- New equipment must be purchased and installed between January 1, 2021 and December 31, 2021. Refurbished equipment will not be accepted.
- Allow up to six weeks to receive your rebate payment after final approval of application.

## Electric heating/cooling systems

Equipment Type	Rebate
<b>Central air-conditioning (AC) units</b>	
16 SEER or higher	\$200
18 SEER or higher	\$400
AC Tune-Ups	\$25

### Electric heat pumps\*

Electric air source, 16 SEER or higher	\$300
--	-------

### Heat pump tune-ups

16 SEER or higher	\$50
-------------------	------

### Ductless heat pumps\*

19 SEER or higher, 9.5 HSPF or higher	\$300
---------------------------------------	-------

## Appliances

Equipment Type	Rebate
----------------	--------

### Appliances

Homes with CenterPoint Energy electric service are eligible for the following rebates. Appliances must be ENERGY STAR® certified.

Air Purifier	\$50
Clothes Dryer	\$50
Clothes Washer	\$50
Dehumidifier	\$35

Note: See detailed qualifications rules and requirements on the rebate application by visiting [CenterPointEnergy.com/SmartSavings](https://www.CenterPointEnergy.com/SmartSavings).

For AC units, electric heat pumps, and ductless heat pumps the purchase must be a high-efficiency Air-Conditioning, Heating and Refrigeration Institute (AHRI) rated qualifying system. An AHRI certificate must be submitted with the application.

HVAC tune-up rebate available once every 24 months per HVAC equipment. Customer must not have an existing Preventative Maintenance Contract or Agreement.

\*Electric and Ductless Heat Pumps: Rebates only available through Midstream in 2021. Higher efficiency equipment may be eligible for a rebate through the alternative rebate offers (Midstream). To learn more, call 866-240-8476 to ask about participating distributors in your area.

## Weatherization Rebates

### Achieve lower energy bills and a more comfortable home.

Note: Customers must choose a program-approved contractor to qualify for these rebates. Insulation and duct sealing improvements are not eligible for rebates when installed in new construction. Program-approved contractors can be found on the website at [CenterPointEnergy.com/SmartSavings](https://CenterPointEnergy.com/SmartSavings).

Homes that use a natural gas furnace in conjunction with an electric heat pump, known as a dual-fuel system, do not qualify for this rebate. All materials and work must be in compliance with local codes and performed per program standards. Please review all program requirements (PDF) before purchasing equipment or applying for rebates: [CenterPointEnergy.com/SmartSavings](https://CenterPointEnergy.com/SmartSavings)

#### Insulation

Equipment Type	Rebate
----------------	--------

##### Attic insulation

Open Attic - 40% of material and labor invoice cost. Existing insulation must be R-11 or below. Installed insulation must be R-38 or above.	<b>up to \$450</b>
Enclosed Attic or Ceiling Cavities - 40% of material and labor invoice cost. Existing insulation must be R-5 or below. Installed insulation must be R-13 or above.	<b>up to \$450</b>

##### Wall insulation

40% of material and labor invoice cost. Existing insulation must be R-5 or below. Installed insulation must be R-13 or above.	<b>up to \$450</b>
---	--------------------

#### Duct Sealing

Equipment Type	Rebate
Duct Sealing	<b>\$300</b>

Note: Limit one rebate per household. Customer must pay minimum of \$100 out of pocket costs.

Note: Rebates apply to homes with natural gas or electric service. See detailed qualifications rules and requirements on the rebate application by visiting [CenterPointEnergy.com/SmartSavings](https://CenterPointEnergy.com/SmartSavings).

#### Thermostat Rebates

Your thermostat is the gateway to considerable savings. Earn rebates toward a variety of qualifying Wi-Fi enabled thermostats to make it easy to manage your home's temperature and energy use.

Equipment Type	Rebate
Smart Thermostat (Must be ENERGY STAR® certified)	<b>\$75</b>
Wi-Fi Enabled Thermostat	<b>\$50</b>

Note: Must be Wi-Fi capable, without additional equipment, and connected to the internet for programming and adjusting remotely. Limit of two thermostats per home (includes both "Wi-Fi" and "Smart"). Available for existing homes only; new construction homes are not eligible. See [CenterPointEnergy.com/SmartSavings](https://CenterPointEnergy.com/SmartSavings) for more details.

## Water Heating & Pool Equipment Rebates

Water heating accounts for about 18% of your home's energy use, and reducing your hot water use by upgrading your home water heater is a long-term fix that pays for itself.

There are a variety of eligibility guidelines specific to each rebate. Please review all program requirements at [CenterPointEnergy.com/SmartSavings](https://CenterPointEnergy.com/SmartSavings) before purchasing equipment or applying for rebates.

### Natural gas water heating systems

Equipment Type	Rebate
<b>Natural gas water heaters</b>	
Storage Water Heater (.67 EF or higher)	<b>\$100</b>
Tankless Water Heater (.90 EF or higher)	<b>\$250</b>

Note: These rebates require CenterPoint Energy gas service.

### Electric water heating systems

Equipment Type	Rebate
<b>Heat pump water heaters</b>	
2.0 EF or higher	<b>\$300</b>

Note: Homes with CenterPoint Energy electric service are eligible for this rebate. Heat pump water heaters must have an EF of 2.0 or greater to qualify.

### Pool Equipment

Equipment Type	Rebate	
Pool equipment		
Pool Heater	6 COP or higher	\$1,000
	5.5-5.9 COP	\$500
Variable-speed Pool Pumps (rebate offer ends 2021)		\$300

Note: Single-speed and two-speed pool pumps do not qualify for a rebate.

## Residential New Construction Program

Builders and contractors can earn cash rebates by constructing new, energy-efficient homes which achieve a certain energy efficiency rating called a Home Energy Rating System (HERS) Index Score. Homes must be rated by a RESNET® certified HERS Rater between January 1, 2021 and December 31, 2021.

### Homes with CenterPoint Energy Gas & Electric Services

Equipment Type	Rebate
Homes meeting the Gold Star HERS Index Score 62 or less	<b>\$700</b>
Homes meeting the Platinum Star HERS Index Score of 60 or less	<b>\$1,000</b>
HERS Index Score ≤60 PLUS natural gas tankless water heater*	<b>\$1,200</b>

Note: Home must utilize CenterPoint Energy natural gas for home heating (furnace) and use CenterPoint Energy electric service for cooling (AC). Home must meet specified HERS Index Score rating.

#### Did You know?

The Home Energy Rating System (HERS) Index Score is like a miles-per-gallon sticker for homes. It gives prospective buyers and homeowners insight into how a home ranks in terms of energy efficiency. Based on this system, CenterPoint Energy has developed Gold Star, Platinum Star and Platinum Star Plus standards, which home builders can apply to their new builds in order to claim rebates and further promote their homes to buyers.

### Homes with CenterPoint Energy Gas Service Only

Equipment Type	Rebate
Homes meeting the Gold Star HERS Index Score of 63 or less	<b>\$350</b>
Homes meeting the Gold Star HERS Index Score 62 or less	<b>\$500</b>
HERS Index Score ≤60 PLUS natural gas tankless water heater*	<b>\$700</b>

Note: Home must utilize CenterPoint Energy natural gas for home heating (furnace). Home must meet specified HERS Index Score rating.

### Homes with CenterPoint Energy Electric Service Only

Equipment Type	Rebate
Gold Star 62 or less	<b>\$700</b>
Homes meeting the Platinum Star HERS Index Score of 60 or less	<b>\$1,000</b>
Homes meeting the Platinum Star Plus HERS Index Score of 60 or less PLUS electric tankless or heat pump water heater	<b>\$1,200</b>

\*Homes with CenterPoint Energy gas must install natural gas tankless water heater. Homes with only CenterPoint Energy electric must install either an electric tankless or heat pump water heater.

### ***Appliance Recycling (Electric Service Only)***

Participate in CenterPoint Energy's Appliance Recycling Program and we will haul away your extra fridge or freezer and recycle it—all at no cost to you. Doing so can save you up to \$200 a year. See even more savings when you recycle more than one extra appliance or an older appliance. Receive an additional \$25 for letting us pickup and recycle your window A/C unit.

\*Window A/C pickup must be in conjunction with a scheduled fridge/freezer pickup.

#### **Eligibility**

Participant must be a current CenterPoint Energy electric residential customer. Participant must own the eligible unit or have written permission from the owner to participate. The appliance must be in working condition.

#### **Pick-up Requirements**

Refrigerators and freezers must be cleaned, emptied and plugged-in at time of pick-up. An adult (18 years of age or older) must be present at time of pick-up. Clear and safe access to eligible appliances must be provided at time of pick-up. The removal team will not risk injury or be able to move personal items or modify your home to remove the units.

#### **Appliance Qualifications**

Participants may recycle two eligible refrigerators or freezers per household per year. Secondary or primary units are eligible. Older or less efficient appliances are preferred. Refrigerators and freezers must meet the size requirement (10 cubic ft. - 30 cubic ft.). Appliances must be electric and not gas.

## Home Energy Assessments

**Evaluating your home energy usage and making small changes can help lower your energy bills.**

With a home energy assessment, a CenterPoint Energy of Indiana Energy Efficiency Technician (Technician) will perform a walkthrough of your home to help you understand how your home and appliances use energy. You may even receive energy-saving products on the spot! Upon completion of the assessment, the Technician will give you a personalized home energy report with an action plan for additional energy-saving efforts for your home.

Here are some examples of what a Technician may do:

- Analyze your home energy use by assessing the heating, ventilation and air conditioning (HVAC) system for operating efficiency
- Conduct blower-door directed air sealing
- Check for water leaks and electrical and gas hazards
- Inspect the insulation levels in the attic, which may result in the installation of insulation at a later date
- Replace traditional incandescent bulbs with energy-efficient LEDs
- Add water pipe insulation
- Install energy-efficient kitchen and bathroom sink aerators
- Install energy-efficient showerhead(s)
- Install smart thermostat

**Eligibility.** Must have CenterPoint Energy electric service and also use CenterPoint Energy service as the primary heat source. Homes must be more than five years old and have not participated in an assessment in the last three years.

## Two Ways to Schedule an Assessment

1. **Online:** [CenterPointEnergyAssessment.com](https://CenterPointEnergyAssessment.com)
2. **By Phone:** Call **855-298-5390** to speak with a program representative

## Neighborhood Weatherization Assessment

(income qualifications)

Assessments are open to customers with:

- Customers who receive benefits from SNAP, LIHEAP, WIC, Welfare, and/or Section 8 are automatically eligible
- Customers must meet income guidelines based on household size in order to be eligible
- A combination of natural gas and electric, or solely electric service, from CenterPoint Energy
- If a customer has only electric service through CenterPoint Energy, their primary heating fuel must be electricity
- Homes that are more than five years old
- Homes that have NOT participated in an assessment in the last three years

To schedule, call **855-298-5390** or visit [Midwest.CenterPointEnergy.com/Savings/In-Home/Assessments](https://Midwest.CenterPointEnergy.com/Savings/In-Home/Assessments)

Check the website above for income guidelines.

### Tips & Resources

Check out [Midwest.CenterPointEnergy.com/Savings/In-Home/Resources](https://Midwest.CenterPointEnergy.com/Savings/In-Home/Resources) for energy efficiency tips and resources.

## Residential Rebate Application Process

### For Existing Homes

1. Determine home eligibility.
2. Complete application and attach invoices.
3. Submit paperwork.
  - a. Submit application along with required documentation within 60 calendar days of equipment installation in one of the following ways:
    - i. **Online:** [CenterPointEnergy.com/SmartSavings](https://CenterPointEnergy.com/SmartSavings)
    - ii. **Email:** [INrebates@CenterPointEnergy.com](mailto:INrebates@CenterPointEnergy.com) (Please include all invoices as email attachments.)
    - iii. **Mail:** CenterPoint Energy Indiana, ATTN: Rebates, 3100 West Road, Bldg 3, Suite 200, East Lansing, MI 48823
    - iv. **Fax:** **866-741-5584**
4. Allow up to six (6) weeks to receive your rebate. Incomplete rebate applications will cause a delay in processing. You may check status online: [CenterPointEnergy.com/SmartSavings](https://CenterPointEnergy.com/SmartSavings)

### For New Construction

1. Build an energy-efficient home and have a HERS rating completed. Note: The HERS rating must have been completed by a RESNET® certified HERS Rater. The property must be serviced by CenterPoint Energy of Indiana under an active residential account.
2. Submit rebate application once the project is complete with a HERS certificate. Note: Qualifying homes in Indiana with a HERS Index Score 62 or less will receive a rebate.
  - a. Submit application along with required documentation within 90 calendar days in one of the following ways:
    - i. **Online:** [CenterPointEnergy.com/SmartSavings](https://CenterPointEnergy.com/SmartSavings)
    - ii. **Email:** [INrebates@CenterPointEnergy.com](mailto:INrebates@CenterPointEnergy.com) (Please include HERS certificate as email attachment.)
    - iii. **Mail:** CenterPoint Energy Indiana, ATTN: Rebates, 3100 West Road, Bldg 3, Suite 200, East Lansing, MI 48823
    - iv. **Fax:** **866-741-5584**
4. Allow up to six (6) weeks to receive your rebate. Incomplete rebate applications will cause a delay in processing. You may check status online: [CenterPointEnergy.com/SmartSavings](https://CenterPointEnergy.com/SmartSavings)

## Smart Cycle Program

**Switch now to a smart thermostat and during the summer months, you'll continue to receive your monthly credit on your energy bill.**

Open to a select number of current customers, Smart Cycle uses new Wi-Fi thermostat technology in place of traditional cycling switches. Over the next several years, the Summer Cycler program will transition to Smart Cycle and you are invited to be one of the first to make the switch.

CenterPoint Energy will provide a professionally installed smart thermostat for your home and enroll you in an energy cycling program. Throughout the summer months, you will continue to receive a \$5 per month bill credit for participating in cycling events. These cycling events allow CenterPoint Energy to pre-cool your home and cycle your air conditioning unit to manage energy levels on peak usage days.

Note: To qualify for the Smart Cycle program and receive your smart thermostat you must be a CenterPoint Energy electric customer. You must be a current Summer Cycler user and have Wi-Fi in your home. The existing heating/cooling system and any smart thermostat you already have installed at your home must meet the compatibility requirements. You must enroll in the cycling program for three (3) years (early exit from the program may result in additional charges).

## Bring Your Own Thermostat (BYOT)

If you already have a participating\* Wi-Fi smart thermostat, you can enroll with the Bring Your Own Thermostat (BYOT) program. You will receive a one-time bill credit of \$75 and a \$5 monthly bill credit during the peak summer months of June – September. This program helps reduce the company's peak demand for electricity during a select number of hot summer weekdays.

Visit [enrollmythermostat.com/centerpoint-in](https://enrollmythermostat.com/centerpoint-in) to enroll your thermostat in the smart thermostat rewards program.

Note: To qualify for the BYOT Program you must be a CenterPoint Energy electric customer, you must have a smart thermostat and you must have Wi-Fi in your home. Participating brands include Google Nest, ecobee, Honeywell, Emerson, Lux Products, Radio Thermostat, Alarm.com, and Vivint.

## ***CenterPoint Energy School Education Program***

### **Helping schools and families to Think, Talk, and Take Action.**

The fun and informative CenterPoint Energy School Education Program teaches lifelong lessons on energy and water efficiency. Fifth grade students and teachers receive Take Action Kits containing energy saving devices such as kitchen and bathroom aerators, shower heads, LED light bulbs, and a furnace filter whistle. The program also provides an online or DVD presentation, posters and activity guides for teachers and students to empower participants to be leaders in energy efficiency.

### **Registration**

Fifth grade teachers and administrators may register online. After school eligibility is determined, an Educational Support Coordinator will contact teachers to verify information and set up deliveries of teacher materials and Take Action Kits.

Visit [ThinkEnergy.org/CenterPointEnergy](http://ThinkEnergy.org/CenterPointEnergy) for details on submitting Home Energy Worksheets and installation help videos to help with your Take Action Kits.

# Commercial Programs

## Natural Gas Equipment Rebates

Earn rebates on qualifying energy efficient equipment for Indiana businesses.

Note: You must have CenterPoint Energy gas service to qualify for these rebates.

Equipment Type	Rebate
<b>Advanced rooftop controls</b>	
Demand control (DCV) only	<b>\$1.00/kBtu/h</b>
DCV & VFD with 2 or 3-speed fan control	<b>\$0.55/kBtu/h</b>

### Heating and cooling

Condensing hot water boiler	90% AFUE or higher, less than 300 MBH	<b>\$500/unit</b>
	90% TE or higher, 300-499 MBH	<b>\$1,500/unit</b>
	90% TE or higher, 500-999 MBH	<b>\$2,500/unit</b>
	90% TE or higher, 1000 MBH or higher	<b>\$5,000/unit</b>
Steam boiler (hp)		<b>\$15/boiler</b>
Small gas furnace (92% AFUE or higher, less than 90 MBTUH)		<b>\$100/unit</b>
Gas furnace	92% AFUE or higher, 90 MBTUH or higher	<b>\$150/unit</b>
	95% AFUE or higher, 90 MBTUH or higher	<b>\$250/unit</b>
	97% AFUE or higher, 90 MBTUH or higher	<b>\$300/unit</b>
Infrared heater		<b>\$350/unit</b>
High efficiency unit heater		<b>\$200/unit</b>
Boiler and unit heater tune-up		<b>\$0.20/kBtu/h</b>
Furnace/unit heater/small boiler tune-up		<b>\$20/unit</b>
Boiler reset control		<b>\$250/unit</b>

### Thermostats

Wi-Fi enabled thermostat	<b>\$100/unit</b>
Programmable thermostat	<b>\$50/unit</b>

### Steam traps

Steam trap service	Dry cleaner	<b>\$250/trap</b>
	Low pressure - <15 psi	<b>\$50/trap</b>
Steam pipe insulation		<b>\$10/lnr. ft.</b>

Equipment Type	Rebate
<b>Water heating</b>	
Tankless water heater (.87 UEF or higher)	<b>\$300/unit</b>
Storage water heater*	<b>\$100/unit</b>
Hot water pipe insulation	<b>\$3/lnr. ft.</b>

### Commercial kitchen

Commercial dishwasher	Low flow pre-rinse sprayer	<b>\$5/unit</b>
	Gas combination oven*	<b>\$900/unit</b>
	Steam cooker*	<b>\$200/pan</b>
	Infrared upright broiler	<b>\$1,000/unit</b>
	Infrared charbroiler	<b>\$500/unit</b>
	Door type, high temp*	<b>\$650/unit</b>
	Door type, low temp*	<b>\$550/unit</b>
	Multi-tank conveyor, high temp*	<b>\$1,600/unit</b>
	Multi-tank conveyor, low temp*	<b>\$850/unit</b>
	Single-tank conveyor, high temp*	<b>\$900/unit</b>
	Single tank conveyor, low temp	<b>\$550/unit</b>
	Under counter, high temp	<b>\$350/unit</b>
	Under counter, low temp	<b>\$50/unit</b>
	Gas fryer*	<b>\$500/vat</b>
	Convection oven*	<b>\$350/cavity</b>
	Griddle*	<b>\$100/unit</b>

\*Equipment must meet program specification requirements. Refer to [CenterPointEnergy.com/INFoodservice](http://CenterPointEnergy.com/INFoodservice) to determine California Energy Wise (CEW) or Energy Star rating eligibility.

## Electric Equipment Rebates

You must have CenterPoint Energy electric service to qualify for these rebates.

Equipment Type	Rebate
<b>Lighting</b>	
Electric Lighting Measure Form (PDF) required with application available at <a href="https://www.CenterPointEnergy.com/BusinessLighting">CenterPointEnergy.com/BusinessLighting</a>	
100-175W interior high bay to LED	<b>\$25/fixture</b>
176-250W interior high bay to LED	<b>\$35/fixture</b>
251-500W interior high bay HID to LED	<b>\$60/fixture</b>
501-1000W interior high bay HID to LED	<b>\$150/fixture</b>
1-4 lamp 4' fluorescent fixture to LED	<b>\$5-20/fixture</b>
1-2 lamp 8' fluorescent fixture to LED	<b>\$10-20/fixture</b>
100-175W exterior fixture to LED	<b>\$40/fixture</b>
176-250W exterior fixture to LED	<b>\$50/fixture</b>
251-500W exterior fixture to LED	<b>\$100/fixture</b>
501-1000W exterior fixture to LED	<b>\$160/fixture</b>
LED refrigerated case lighting	<b>\$15-45/lamp</b>
Fluorescent exit sign to LED	<b>\$30/sign</b>
Interior lighting controls	<b>\$15-40/sensor</b>
Interior lighting power density reduction (new construction or major renovation only)	<b>\$0.30/watt blw. baseline</b>
Linear fluorescent delamping	<b>\$3-12/lamp</b>

Equipment Type	Rebate
----------------	--------

### Advanced rooftop controls

≥ 5 ton and ≤ 10 Tons	<b>\$800</b>
> 10 ton and ≤ 15 Tons	<b>\$1,500</b>
> 15 ton and ≤ 20 Tons	<b>\$2,000</b>
> 20 Tons	<b>\$4,000</b>

### Heating and cooling

Electric Heating & Cooling Measure Selection Form (PDF) required with application available at [CenterPointEnergy.com/BusinessElectricHeating](https://www.CenterPointEnergy.com/BusinessElectricHeating)

Air-conditioner or heat pump	<b>(C)\$30/ton (H)\$10/ton</b>
Packaged Terminal Air Conditioner (PTAC) or Heat Pump (PTHP)	<b>(C)\$30/ton (H)\$100/ton</b>
Window/room air conditioner	<b>\$12-14/unit</b>
Window film	<b>\$1/sq.ft.</b>
Variable Frequency Drive (VFD)	<b>\$60/hp</b>
Chiller (air cooled)	<b>\$30/ton</b>
Chiller (water cooled)	<b>\$30/ton</b>
Chiller tune-up	<b>\$8/ton</b>
Chiller water reset control	<b>\$1.50/ton</b>

### Thermostats

Electric Heating & Cooling Measure Selection Form (PDF) required with application

Wi-Fi enabled thermostat	<b>\$100/unit</b>
Programmable thermostat	<b>\$50/unit</b>

### Important Information

#### Program Dates: Jan 1 - Dec 31, 2021

- Completed applications must be postmarked and submitted within 90 days of equipment installation and include all required information, applicable measure selection form, technical data sheets, and an itemized invoice.
- New equipment must be purchased and installed between January 1, 2021 and December 31, 2021. Refurbished equipment will not be accepted.
- Allow up to six weeks to receive your rebate payment after final approval of application.

Equipment Type	Rebate
----------------	--------

**Commercial kitchen**

Refrigerator*	\$50-70/unit	
Freezer*	\$100-350/unit	
LED refrigerated case lighting	\$15-45/lamp	
Electronically Commutated Motor (ECM)	\$35-45/unit	
Anti-sweat heater control	\$50-100/unit	
Refrigerated case cover	\$10/lnr. ft.	
Ice machine*	\$100-250/unit	
Hot food holding cabinet*	\$150-420/unit	
Fryer*	\$80/vat	
Steam cooker*	\$200/pan	
Griddle*	\$550/unit	
Combination oven*	\$1,000/unit	
Convection oven*	\$350/cavity	
Dishwasher	Door type*	\$1,000-1,100/unit
	Conveyor type*	\$900-2,700/unit
	Under counter*	\$100-600/unit
Vending machine occupancy sensors		\$25-50/unit
Low flow pre-rinse sprayer		\$5/unit

\*Equipment must meet program specification requirements. Refer to [CenterPointEnergy.com/INFoodserviceElectric](https://CenterPointEnergy.com/INFoodserviceElectric) to determine CEW or Energy Star rating eligibility.

**Agriculture**

Electric Agriculture Measure Selection Form (PDF) required with application available at [CenterPointEnergy.com/BusinessElectricAG](https://CenterPointEnergy.com/BusinessElectricAG)

Livestock waterer	<b>\$200/unit</b>
VFD Dairy vacuum pump	<b>\$5/cow</b>
High-volume low-speed fans	<b>\$750/fan</b>
High-speed exhaust and ventilation fans	<b>\$75/fan</b>
High-speed circulation fans	<b>\$75/fan</b>

Equipment Type	Rebate
----------------	--------

**Agriculture (cont.)**

Dairy plate cooler		\$3/cow
Heat Mat	Single (approx. 14" x 60"), 90 watts or less	\$65/unit
	Double (approx. 24" x 60"), 180 watts or less	\$130/unit
Automatic milker take off		\$5/cow
HE dairy scroll compressor (1-10 hp)		\$50/unit
Heat reclaimers		\$5/cow

**Other Rebates**

Electric Miscellaneous Measure Selection Form (PDF) required with application available at [CenterPointEnergy.com/BusinessOther](https://CenterPointEnergy.com/BusinessOther)

Clothes washer	<b>\$50-70/unit</b>
Office plug load controls	<b>\$8-20/unit</b>
Compressed Air Leak Study and Repair	<b>\$12/hp</b>
Compressed air nozzles	<b>\$5-8/nozzle</b>
Variable speed air compressor	<b>\$75/hp</b>
Barrel wrap insulation	<b>\$30/sq.ft.</b>
Pellet dryer duct insulation	<b>\$30/lnr. ft.</b>
Low flow showerhead	<b>\$5/unit</b>

**Energy-Saving Project Snapshots****West Terrace Elementary School**

- Measures Implemented: **High-Temp Dishwasher**
- Total Project Cost: **\$21,429**
- Estimated Annual Energy Savings: **34,153 kWh**
- Estimated Annual Cost Savings: **\$4,098**
- Rebate: **\$2,700**
- Estimated Payback Period With Rebate: **5.2 years**
- Estimated Payback Period With Rebate: **4.6 years**

**School District's Boiler Tune-Up Service**

- Measures Implemented: **Boiler Tune-up**
- Total Project Cost: **\$280**
- Estimated Annual Energy Savings: **8,940 Therms**
- Estimated Annual Cost Savings: **\$5,453**
- Rebate: **\$200**
- Estimated Payback Period With Rebate: **Immediate**

**Questions**

Call **866-240-8476** or visit [CenterPointEnergy.com/SmartSavings](https://CenterPointEnergy.com/SmartSavings) for the rebate application and complete details on energy-efficient equipment and service requirements. Pre-approval is required for Custom projects exceeding \$20,000.

### ***Commercial New Construction***

The CenterPoint Energy New Construction Program provides Energy Design Assistance (EDA) services and financial incentives that support energy-efficient design work. For projects over 100,000 square feet, the program can also provide a no-cost building energy model. The EDA design team includes the property owner, architect, lighting and HVAC engineers, general contractor and other stakeholders. CenterPoint Energy provides the team with an energy expert, who will provide a report identifying potential savings to maximize incentives.

Participating customers may be eligible for three types of incentives: EDA Bonus, Prescriptive and Custom. The EDA Bonus is awarded to customers that receive EDA and select to implement recommendations from the CenterPoint Energy-provided EDA report.

To learn more, contact us at [IndianaBizPrograms@CenterPointEnergy.com](mailto:IndianaBizPrograms@CenterPointEnergy.com). Apart from rebates, you will be provided an energy assessment report that will detail opportunities, costs, energy savings, incentives and simple payback periods.

Note: Commercial new construction incentives are available to projects which will utilize CenterPoint Energy electric service. Only available to eligible new construction or major renovation projects that will utilize CenterPoint Energy's electric and/or natural gas service. EDA identifies energy efficient opportunities during the conceptual design phase of a construction project.

## Assessments

### Get a customized report of energy efficiency improvements.

Small business and multifamily assessments are available to locations utilizing CenterPoint Energy electric service, and building tune-ups are available to facilities utilizing CenterPoint Energy electric and/or natural gas service. Contact an Energy Efficiency Advisor at [IndianaBizPrograms@CenterPointEnergy.com](mailto:IndianaBizPrograms@CenterPointEnergy.com) or call **866-240-8476** to learn more or verify your eligibility.

#### Small Business Energy Solutions (SBES)

SBES helps businesses and nonprofits identify savings opportunities by providing an on-site energy assessment customized for their business and free installation of energy-saving products, such as high-efficiency lighting and water-saving measures.

Most Evansville-area small businesses with a monthly electric demand of 400 kilowatts (kW) or less, including grocery, convenience, retail, office, auto service shops, and dry cleaners with CenterPoint Energy general electric service qualify for the program. Nonprofits qualify for this program without restriction on monthly kW demand.

Examples of eligible energy-efficient equipment include: indoor/outdoor energy-efficient lighting, LED exit signs, lighting occupancy sensors, refrigerator/freezer efficiencies, and Wi-Fi enabled thermostats.

#### Building Tune-Ups (BTU)

Quickly cut energy costs without spending a lot of money on new equipment. At no cost to you, a highly qualified contractor will perform a study on your facility detailing ways to optimize your current system, typically resulting in reduced energy costs between 10% and 15%.

- To help install any of the identified improvements, we will cover 50% of eligible measurement and implementation costs - up to \$2,500!
- To receive the maximum discount, every participant is asked to agree to spend a minimum of \$5,000 towards improvements, identified by the BTU study, with an 18-month or less payback.
- If you are a small or medium size business (<500 kW peak demand), you may be eligible to receive expert technical services and financial incentives valued up to \$30,000 per project. Visit [CenterPointEnergy.com/BusinessBTU](http://CenterPointEnergy.com/BusinessBTU) for more information.

Note: Get started by completing and submitting the program application. Upon approval, our program team will contact you to set up a site visit. Application reviews typically take 2-3 weeks.

#### Multifamily Energy Solutions (MFES)

MFES provides extra assistance to multifamily building owners by offering an on-site energy assessment customized to their needs. The assessment includes free installation of energy-saving products, such as high-efficiency lighting and water-saving measures in common spaces.

Most Evansville-area multifamily building owners including apartment buildings, condominiums, cooperatives, duplexes, quadraplexes, townhomes, nursing homes and retirement communities with CenterPoint Energy general electric service in Indiana may qualify for the program.

Examples of eligible energy-efficient equipment include indoor/outdoor energy-efficient lighting, LED exit signs, lighting occupancy sensors, and thermostats.

Only preapproved contractors can perform services in the SBES and MFES Programs. A list of SBES and MFES contractors can be found on our website at [CenterPointEnergy.com/SBESContractors](http://CenterPointEnergy.com/SBESContractors). Please select your preferred contractor and contact them via phone or email to set up your no-cost energy assessment.

### Assessment Process

1. Choose a contractor from the program to perform the assessment and help complete the application available at [CenterPointEnergy.com/SBES](http://CenterPointEnergy.com/SBES).
2. Review the contractor's energy report and suggested improvements. Decide which ones you would like to implement.
3. Implement upgrades and install equipment. The program discounts will automatically be applied to the amount you owe for the contractor's services like an instant rebate.

## Commercial Custom Incentives

### Offset up-front capital and reduce operating costs.

Whether you're installing lighting controls, upgrading air control systems or implementing other energy-efficient technologies, incentives through our Custom Programs can help you offset up-front capital and reduce operating costs. See the program application and applicable terms and conditions for complete eligibility guidelines.

**A Custom Program Application MUST be submitted and preapproved for a rebate incentive before purchasing or installing any equipment.**

#### Natural Gas Custom Projects

Examples of eligible projects include domestic water heating systems, outside air control, insulation, duct sealing, grain dryers, demand control ventilation, ozone laundries and window replacements. All CenterPoint Energy of Indiana business customers with CenterPoint Energy natural gas service served under rates 120, 125, 220 and 225 qualify. Visit [CenterPointEnergy.com/CustomGas](https://www.CenterPointEnergy.com/CustomGas) for more information.

#### Electric Custom Projects

Examples of eligible projects include refrigeration upgrades, outside air control, changes in air distribution/zoning, exterior lighting controls, custom lighting projects, advanced interior lighting controls and electric heating, ventilation and air conditioning (HVAC) projects. All CenterPoint Energy of Indiana business customers with CenterPoint Energy electric service qualify. Visit [CenterPointEnergy.com/CustomElectric](https://www.CenterPointEnergy.com/CustomElectric) for more information.

#### Energy-Saving Project Snapshot

"Our franchiser encouraged us to go with the equipment that took advantage of today's technology. We knew the upgraded equipment would save us significant energy cost over the life of the system- the problem was up-front cost. The CenterPoint Energy Business Custom Incentive Program helped solve that problem; the equipment is living up to expectations, and we are going to achieve a reasonable ROI now."

— Kevin J. Haas, Vice President, Indianapolis, Indiana

#### Equipment Efficiency Upgrades

- Total Project Cost: **\$11,979**
- Estimated Annual Energy Savings: **4,020 Therms**
- Estimated Annual Cost Savings: **\$2,452**
- Rebate: **\$3,015**
- Estimated Payback Period Without Rebate: **4.9 years**
- Estimated Payback Period With Rebate: **3.7 years**

#### Energy-Saving Project Snapshots

##### Heritage Hills High School

Installation of an indoor swimming pool blanket to reduce heat loss and energy costs during unoccupied hours.

- Total Investment: **\$60,000**
- Energy Savings: **92,983 kWh**
- Bill Savings: **\$13,657**
- CenterPoint Energy Custom Incentive: **\$11,626**
- Project Payback After Incentive: **3.4 years**

##### Dry Cleaner's Steam Trap Replacement Project

- Measures Implemented: **Steam Trap Replacements**
- Total Project Cost: **\$12,582**
- Estimated Annual Energy Savings: **12,850 Therms**
- Estimated Annual Cost Savings: **\$7,903**
- Rebate: **\$6,250**
- Estimated Payback Period Without Rebate: **1.6 years**
- Estimated Payback Period With Rebate: **0.8 years**

## Tips & Resources

Check out [CenterPointEnergy.com/INBusinessTips](https://www.CenterPointEnergy.com/INBusinessTips) for energy efficiency tips and resources

# Commercial Prescriptive Rebate Application Process

## How to Apply for Rebates

### 1. Determine facility eligibility

- a. Applicant
  - i. Existing facility: For equipment being installed/updated at an existing facility, the applicant must be a non-residential CenterPoint Energy electric customer. CenterPoint Energy customers who have elected to opt out of participating in CenterPoint Energy's energy efficiency programs are not eligible.
  - ii. New Construction: For equipment being installed at a new facility, the applicant must intend to receive electric service from CenterPoint Energy on an eligible rate for at least one year. See rebate application (PDF) and the terms and conditions (PDF) for complete eligibility guidelines.
- b. Equipment
  - i. Equipment must be purchased and installed by December 31, 2021. Read all requirements carefully to ensure your product qualifies.
- c. Application and installation
  - i. The application must be postmarked within 90 days of equipment installation.

### 2. Complete application & attach all required documents

- a. Complete application
  - ii. Unless noted otherwise, all fields must be completed on the application to receive a rebate.

- b. Attach applicable Measure Selection Form(s) and data sheets
  - i. Complete and attach the applicable Measure Selection Form(s) for each rebate. Technical data sheets or manufacturer cut sheets are required for all installed equipment.
- c. Attach invoices
  - i. Ensure that you have attached copies of all invoices to the application. Invoices should include: the equipment make, model and cost, the date of installation, the total number of units installed and labor costs of equipment installation (for self-installations, internal labor hours and cost estimates must be provided).

### 3. Submit paperwork

- a. Submit application, product forms & invoices
  - i. Submit your completed application, applicable Measure Selection Form(s), technical data sheets and a copy of your itemized invoice(s) within 90 calendar days of equipment installation. You may do so in one of three ways:
    - **Email:** [IndianaBizPrograms@CenterPointEnergy.com](mailto:IndianaBizPrograms@CenterPointEnergy.com)
    - **Mail:** CenterPoint Energy Indiana, ATTN: Rebates, 3100 West Road, Bldg 3, Suite 200, East Lansing, MI 48823
    - **Fax:** (608) 829-2723
- b. Allow up to six (6) weeks to receive payment after the final approval of application.

Terms and conditions apply. Check our utility rebate application for a list of terms and conditions, and effective program dates.
