Equipment Rebates

Rebates from CenterPoint Energy can help you save money on new energy-efficient equipment like furnaces, gas boilers, commercial kitchen equipment, and more. We are here to help you choose the right equipment that both meets your needs and saves energy and money. Inside this booklet, you'll find easy, low- or no-cost and long-term solutions and rebates that are available in the current programs.

Programs run January 1, 2023 to December 31, 2023.

Points of Contact

Residential Programs

For assistance completing a Residential rebate application, call **866-240-8476** or email **OhioRebates@CenterPointEnergy.com** to reach an Energy Efficiency Advisor between 7 a.m. and 7 p.m. EST Monday-Friday.

Commercial & Industrial Programs

For assistance completing a Commercial & Industrial rebate application, call **866-240-8476** or email **OhioRebates@CenterPointEnergy.com** to reach an Energy Efficiency Advisor between 7 a.m. and 7 p.m. EST Monday-Friday.

Residential Programs

Heating System Rebates

Heating costs make up the majority of your energy costs, which makes replacing your old or inefficient HVAC equipment one of the most impactful measures you can take to curb energy usage. There are a variety of eligibility guidelines specific to each rebate, so be sure to check the website for details.

Before purchasing, visit [CenterPointEnergy.com/SmartSavings](https://www.CenterPointEnergy.com/SmartSavings) or call 866-240-8476 for the rebate application and complete details on energy-efficient equipment and service requirements. Rebate amounts are effective for equipment purchased and installed between January 1, 2023 and December 31, 2023. Rebate applications must be postmarked within 60 days of equipment installation.

Natural gas heating systems

Equipment Type	Rebate
Natural gas furnaces	
95-96.99% AFUE	\$150
97% AFUE or higher	\$400
Natural gas boilers	
95% AFUE or higher	\$500

Note: Input capacity must be less than 300 MBTUH.

AFUE = Annual Fuel Utilization Efficiency

Important Information

Program Dates:
Jan 1 - Dec 31, 2023

- Completed applications must be postmarked and submitted within 60 days of equipment installation, and include all required information, invoices and certificates for existing homes and 60 days for new construction after final building inspection and approval.
- New equipment must be purchased and installed between January 1, 2023 and December 31, 2023. Refurbished equipment will not be accepted.
- Allow up to six weeks to receive your rebate payment after final approval of application.

Note: See detailed qualifications rules and requirements on the rebate application by visiting [CenterPointEnergy.com/SmartSavings](https://www.CenterPointEnergy.com/SmartSavings).

Weatherization Rebates

Achieve lower energy bills and a more comfortable home.

Note: Customers must choose a program-approved contractor to qualify for these rebate(s). Customer will then receive an instant rebate directly from the contractor on their invoice. Insulation and air sealing improvements are not eligible for rebates when installed in new construction. Program-approved contractors can be found on the website at CenterPointEnergy.com/SmartSavings.

Homes that use a natural gas furnace in conjunction with an electric heat pump, known as a dual-fuel system, do not qualify for this rebate. All materials and work must be in compliance with local codes and performed per program standards. Please review all program requirements (PDF) before purchasing equipment.

Insulation

Equipment Type	Rebate
Attic insulation	
Attic Insulation	up to \$600
Wall insulation	
Wall insulation	up to \$700

Air Sealing

Equipment Type	Rebate
Air Sealing	up to \$250

Note: Rebates apply to homes with natural gas.
To qualify for an insulation rebate the customer must complete/pay for air sealing. Customers receive an instant air sealing rebate of \$40 per hour from the program-approved contractor on their invoice.

Hot Water Heaters

Equipment Type	Rebate
Natural Gas Tankless Water Heater .90 EF or Higher	\$250
Natural Gas Storage Water Heater .67 EF or Higher	\$100

Thermostat Rebates

Your thermostat is the gateway to considerable savings. Earn rebates toward a variety of qualifying Wi-Fi enabled thermostats to make it easy to manage your home's temperature and energy use.

Equipment Type	Rebate
Smart Thermostat (Must be ENERGY STAR® certified)	\$50
Wi-Fi Enabled Thermostat	\$30

Note: Must be Wi-Fi capable, without additional equipment, and connected to the internet for programming and adjusting remotely. Limit of two thermostats per home (includes both "Wi-Fi" and "Smart"). Available for existing homes only; new construction homes are not eligible. See CenterPointEnergy.com/SmartSavings for more details.

Residential Rebate Application Process

1. Determine home eligibility.
2. Complete application and attach invoices.
3. Submit paperwork.
 - a. Submit application along with required documentation within 60 calendar days of equipment installation in one of the following ways:
 - i. **Online:** CenterPointEnergy.com/SmartSavings
 - ii. **Email:** OhioRebates@CenterPointEnergy.com (Please include all invoices as email attachments.)
 - iii. **Mail:** CenterPoint Energy, ATTN: Rebates, 16350 Felton Rd, Lansing, MI 48906
4. Allow up to six (6) weeks to receive your rebate. Incomplete rebate applications will cause a delay in processing. You may check status online: CenterPointEnergy.com/OHRebateSubmission

Commercial Programs

Natural Gas Equipment Rebates

Save money and energy with rebates on qualifying energy efficient equipment.

Equipment Type	Rebate
----------------	--------

Boilers

Natural gas 90% AFUE/CE/TE or higher (\$6/MBtu input)	up to \$5,000
Natural gas tune-up (50% of cost)	up to \$250

Furnaces

95-96.99% AFUE	\$300/unit
Unit heater (97% or higher AFUE)	\$400/unit

Infrared and unit heaters

Infrared heater	\$500/unit
Unit heater (90% TE or higher)	\$350/unit

Note: Natural gas infrared heater: Heaters must have an electric ignition. Must be an infrared tube heater. Outdoor patio heating applications are not eligible. New construction is not eligible. Natural gas unit heater: Must be less than 300 MBH and have a thermal efficiency (TE) of 90% or higher (unit heaters 300 MBH or higher may be eligible for custom incentives.)

Energy-Saving Project Snapshot

Elbee Road Investors

- Measures Implemented: **Boiler Tune-Up and Natural Gas Boiler Install (4)**
- Total Project Cost: **\$151,961.50**
- Estimated Annual Energy Savings: **11,557 Therms**
- Rebate: **\$20,375**

Equipment Type	Rebate
----------------	--------

Thermostats

Wi-Fi enabled "smart" thermostat	\$50/unit
----------------------------------	-----------

Kitchen equipment

Steam cooker*	\$650/unit
Gas convection oven*	\$900/cavity
Combination oven	\$2,000/unit
Dishwasher	\$125/unit
Fryer*	\$500/vat

*Equipment must meet program specification requirements. Refer to [CenterPointEnergy.com/OHFoodservice](https://www.CenterPointEnergy.com/OHFoodservice) to determine California Energy Wise (CEW) or Energy Star rating eligibility.

Important Information

Program Dates:

Jan 1 - Dec 31, 2023

- Completed applications must be postmarked and submitted within 90 days of equipment installation and include all required information and an itemized invoice.
- New equipment must be purchased and installed between January 1, 2023 and December 31, 2023. Refurbished equipment will not be accepted.
- Allow up to six weeks to receive your rebate payment after final approval of application.

Commercial Custom Incentives

Offset up-front capital and reduce operating costs.

Whether you're installing rack unit heaters, upgrading air control systems or implementing other energy-efficient technologies, incentives through our Custom Programs can help you offset up-front capital and reduce operating costs. See the program application and applicable terms and conditions for complete eligibility guidelines.

A Custom Program Application MUST be submitted and preapproved for a rebate incentive before purchasing or installing any equipment. Once your project is approved, we will send you a Letter of Intent. Do not begin your energy efficiency project(s) or purchase equipment until you have received this written approval. The project should be completed within 90 days from acceptance.

Custom Projects

Natural gas high-efficiency equipment that falls outside the scope of our standard prescriptive offers may still be eligible for incentives. Whether you're installing insulation or heating equipment or something else that will result in energy savings, incentives through our Custom Programs can help you offset up-front capital and reduce operating costs. Incentives are based on the forecasted natural gas energy savings, for qualified projects that have simple paybacks greater than 1.5 years and therefore need an incentive to compete for limited capital. Incentives are capped at 30% of project costs (including labor) or \$25,000.

Commercial Prescriptive Rebate Application Process

How to Apply for Rebates

1. Determine facility eligibility

- a. Applicant
 - i. Existing facility: For equipment being installed/updated at an existing facility, the applicant must be a non-residential CenterPoint Energy natural gas* customer.
 - ii. New Construction: For equipment being installed at a new facility, the applicant must intend to receive service from CenterPoint Energy on an eligible rate for at least one year. See rebate application (PDF) and the terms and conditions (PDF) for complete eligibility guidelines.
- b. Equipment
 - i. Equipment must be purchased and installed by December 31, 2023. Read all requirements carefully to ensure your product qualifies.
- c. Application and installation
 - i. The application must be postmarked within 90 days of equipment installation.

2. Complete application and attach all required documents

- a. Complete application
 - ii. Unless noted otherwise, all fields must be completed on the application to receive a rebate.
- b. Include IRS Form W-9
 - i. Please include a completed copy of IRS Form W-9 with your rebate application. You can

download a copy from either the IRS website or from [CenterPointEnergy.com/SmartSavings](https://www.centerpointenergy.com/smart-savings).

c. Attach invoices

- i. Ensure that you have attached copies of all invoices to the application. Invoices should include: the equipment make, model, serial number and cost, the date of installation, the total number of units installed and labor costs of equipment installation (for self-installations, internal labor hours and cost estimates must be provided).

3. Submit paperwork

- a. Submit application, product forms and invoices
 - i. Submit your completed application and a copy of your itemized invoice(s) within 90 calendar days of equipment installation. You may do so in one of three ways:
 - **Mail:** CenterPoint Energy Ohio, ATTN: Rebates, 3100 West Road, Bldg 3, Suite 200, East Lansing, MI 48823
 - **Email:** OhioRebates@CenterPointEnergy.com
 - **Fax:** 1-866-741-5584
- b. Allow up to six weeks to receive payment after the final approval of application.

Check our utility rebate application for a list of terms and conditions, and effective program dates.

Commercial Custom Rebate Application Process

How to Apply for Rebates

1. Determine facility eligibility

- a. Applicant
 - i. Existing facility: For equipment being installed/updated at an existing facility, the applicant must be a non-residential CenterPoint Energy natural gas customer.
 - ii. New Construction: For equipment being installed at a new facility, the applicant must intend to receive natural gas service from CenterPoint Energy on an eligible rate for at least one year. See rebate application (PDF) and the terms and conditions (PDF) for complete eligibility guidelines.
- b. Equipment
 - i. Equipment must be purchased and installed by December 31, 2023. Read all requirements carefully to ensure your product qualifies.
- c. Application and installation
 - i. The application must be postmarked within 90 days of equipment installation.

2. Complete application and attach all required documents

- a. Complete application
 - ii. Unless noted otherwise, all fields must be completed on the application to receive a rebate.
- b. Include IRS Form W-9
 - i. Please include a completed copy of IRS Form W-9 with your rebate application. You can download a copy from either the IRS website or from [CenterPointEnergy.com/SmartSavings](https://www.centerpointenergy.com/SmartSavings).

c. Attach invoices

- i. Ensure that you have attached copies of all invoices to the application. Invoices should include: the equipment make, model, serial number and cost, the date of installation, the total number of units installed and labor costs of equipment installation (for self-installations, internal labor hours and cost estimates must be provided).

3. Submit paperwork

- a. Submit application, product forms and invoices
 - i. Submit your completed application and a copy of your itemized invoice(s) within 90 calendar days of equipment installation. You may do so in one of two ways:
 - **Email:** OhioBusinessCustom@CenterPointEnergy.com
 - **Mail:** CenterPoint Energy Business Custom Incentive Application, 6500 Cloy Rd. Centerville, OH 45459
- b. Allow up to six weeks to receive payment after the final approval of application.

4. Receive Letter of Intent (LOI) and Submit Final Documentation

- a. Receive CenterPoint Energy LOI once your custom application is approved.
- b. Begin work once the LOI is received. Project work cannot begin before receiving this.
- c. Submit final project documentation including an itemized invoice, a completed IRS Form W-9, and your final Custom project application, noting any changes to the project description.

Terms and conditions apply. Check our utility rebate application for a list of terms and conditions, and effective program dates.
