

2022 Natural Gas Business Prescriptive Program Fact Sheet

for Indiana Businesses with CenterPoint Energy Natural Gas Service

*Reduce Energy Use and
Operating Costs with
CenterPoint Energy's
Natural Gas Business
Prescriptive Program*

About the Program

The Natural Gas Business Prescriptive Program provides rebates for common energy-efficient equipment installs and upgrades at your business facility.

Eligibility

CenterPoint Energy of Indiana commercial and industrial customers that receive natural gas service with rates 120, 125, 220, or 225 are eligible for rebates.

All installations must be new equipment, with the exception of steam trap repairs. **Applications for rebates in excess of \$20,000 per facility per year MUST be preapproved by CenterPoint Energy prior to purchasing or installing equipment.** See the Business Prescriptive Program Application for more details.

Examples of Qualifying Natural Gas Projects

Here are some examples of common energy-saving projects that may qualify for a Business Prescriptive Program rebate at smaller facilities, such as schools, offices, auditoriums, warehouses, retail locations and grocery stores.

- **Boilers:** Boilers, Boiler Reset Controls, and Boiler Tune-Ups
- **Space Heating:** Thermostats, Furnaces, Advanced Rooftop Controls, and Infrared Heaters
- **Water Heaters:** Tankless and high therm efficiency units
- **Commercial Kitchen:** Fryers, Convection Ovens, and Steam Cookers
- **Steam Traps:** for dry cleaners and low-pressure steam systems

How the Program Works

1. Pre-Installation

- Identify a possible energy-efficiency project at your facility.
- Visit midwest.centerpointenergy.com/savings/in-business/rebates/gas to view a complete list of qualifying natural gas projects and the available rebates.

2. Installation

- Download and complete a Business Prescriptive Program Application.
- Download and complete the Measure Selection Form(s) associated with the rebate(s) you are applying for.
- Purchase and install your energy-saving equipment.

3. Post-Installation

- Submit your completed Application along with the Measure Selection Form(s), Technical Data Sheets and copies of all equipment and services invoices within 90 days of project completion.
- After a project review is complete and your rebate is approved, you will receive a rebate check in the mail.
